

## Virginia Tech Goodwin Hall Signature Engineering Building Blacksburg, VA

Architect: Zimmer Gunsul Frasca Architects LLP, Washington, DC  
 General Contractor: Gilbane Building Company  
 Product Installed: Curtainwall, Storefront, Doors, Custom All-Glass  
 Interior Walls, ACM Panels, Sunshades, Louvers  
 Product Supplier: Tubelite, Sentech Architectural Systems,  
 American Warming and Ventilating

### KEY ELEMENTS OF PROJECT

The main lobby contains a suspended, two story, conference room (known as "The Capsule"). American Door & Glass installed the custom glass and stainless steel skeleton system which holds the glass shingle facade. This is the only structure of this type known to exist.

- 16,000 sq. ft. of curtainwall installed
- 6,000 sq. ft. of interior glass walls and glass handrail
- Unique glass shingle capsule with stainless steel skeleton system
